2.0 Dispatcher

ToooAir Wide Area Dispatcher version 3.7.2 is a base station application to manage fleets, users and groups. Dispatcher Console offers visual dispatching with quick toggle map, user status and group management.

The dispatcher is composed of several main features:

- 1. Toolbar
- 2. Status Bar
- 3. Group List
- 4. User Display Area
- 5. Logs & Contacts
- 6. Information Display
- 7. Send Message

Each feature has unique abilities to enhance safety, security, efficiency and control management.
